ABOUT THE WORKSHOP: With this highly effective method of Facial Rejuvenation, one can simultaneously benefit a person's appearance and overall health. In this course, you will learn: 1) to customize facial rejuvenation treatments based on Chinese and Japanese acupuncture, 2) to assess which meridians are involved in the various ways that individuals physically manifest the aging process, 3) point selection and needle technique for conditions such as acne, dry skin, age spots, sagging skin, wrinkles, scars, double chins, as well as bags and dark circles under the eyes, 4) Acupressure, Qigong and Virginia's own Integrated Deep Muscle Therapy (IDMT) techniques for preserving youthful appearance and combating signs of aging on the face.
