# *Clinic Case Study Grading Rubric: Level III & IV*

**Student Name: _____**

**TOTAL SCORE: _____**
(75% or more required to pass)

**Formatting (10%):**                                                                      **Score & Comments:**
A (10 pts) = Case Study format is professional and appropriate for peer review.
B (8 pts) = Case Study format acceptable, but needs specific improvements.
C (6 pts) = Case Study format minimally acceptable; much improvement needed.
F (0 pts) = Unacceptable formatting.

**Case Summary (10%):**                                                                   **Score & Comments:**
A (10 pts) = Summary is comprehensive with details from all diagnostic methods (observation, auscultation/olfaction, etc.).
B (8 pts) = Summary is acceptable, but missing some important details.
C (6 pts) = Summary is minimally acceptable.
F (0 pts) = Unacceptable Summary.

**Chinese Medical Diagnosis & Analysis (25%):**                                           **Score & Comments:**
A (25 pts) = Diagnosis is comprehensive, clearly stated, and accounts for all evidence.
B (20 pts) = Diagnosis is comprehensive, but doesn't account for all evidence.
C (15 pts) = Diagnosis not comprehensive and/or minimally supported with evidence.
F (0 pts) = Diagnosis not comprehensive and/or not supported with evidence.

**Biomedical Impression (10%):**                                                          **Score & Comments:**
A (10 pts) = Biomedical impression supported with evidence and analyzes different options within the standard of care.
B (8 pts) = Biomedical impression demonstrates professionalism, and considers different options.
C (6 pts) = Biomedical impression questionable and/or missing details on standard of care.
F (0 pts) = Unacceptable Biomedical impression with inadequate details on standard of care.

**Treatment & Analysis (25%):**                                                           **Score & Comments:**
A (25 pts) = Treatment plan summarized, comprehensively analyzed, including mechanisms of action.
B (20 pts) = Treatment plan summarized and analyzed, but missing some important details.
C (15 pts) = Treatment plan summarized, but minimally analyzed.
F (0 pts) = Unacceptable treatment summary and analysis.

**Outcomes & Prognosis (10%):**                                                           **Score & Comments:**
A (10 pts) = Outcomes detailed and the prognosis thoroughly explained using evidence.
B (8 pts) = Outcomes and Prognosis adequately explained, but missing details.
C (6 pts) = Outcomes and Prognosis included, but minimally explained.
F (0 pts) = Outcomes or Prognosis not included or not sufficiently explained.

**Recommendations & Conclusions (10%):**                                                  **Score & Comments:**

A (10 pts) = Recommendations and Conclusions thoroughly explained, supported with evidence, and insightful.
B (8 pts) = Recommendations and Conclusions adequately explained, but missing details.
C (6 pts) = Recommendations and Conclusions included, but minimally explained.
F (0 pts) = Insufficient Recommendations and Conclusions.
